

4 WHEEL DRIVE TRANSFER CASE PROTECTION

ONE TIME USE TREATMENT FOR ALL AUTOMOBILES AND LIGHT TRUCKS:

\$24.95

This product contains our proprietary Pfl™ formula that chemically bonds a micro-thin permafused anti-wear lubricant film to all lubricated metal surfaces inside the transfer case. Scientifically engineered to migrate into gear and bearing surfaces providing full Pfl protection from friction, wear and heat. This product is designed for 4 Wheel Drive Transfer Cases. [8oz bottle](#)

Overall Benefits:

Improves overall performance

Extends gear life

Reduces heat, wear, friction

FOLLOW THESE DIRECTIONS EXACTLY TO ENSURE THE BEST PERFORMANCE IMPROVEMENT

A few things to know before you get started:

This is a permanent product.

We strongly recommend that you keep up your manufacturers' maintenance program. Changing fluids regularly is the key to successful car maintenance.

Do not mix our product with another. If your transmission has some other kind of treatment in it we recommend that you first change the fluids and then add our products.

Directions for 4 Wheel Drive Transfer Case Protection:

Drain gear oil.

Refill with specified lubricant, allowing for the 8 fl oz of 4 wheel drive transfer case protection.

Do not overfill.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Do not induce vomiting. Seek medical attention. Wash hands thoroughly with soap and water after use.
