

AUTOMATIC TRANSMISSION TREATMENT

FOR ALL HEAVY DUTY GAS OR DIESEL ENGINES UP TO 960 CU IN:

\$49.95

This product contains our proprietary SSL™ formula that cleans, protects and lubricates all metal surfaces. It is designed to blend with all types of automatic transmission fluids. The unique anti-wear performance of this product helps reduce the most common problems caused by wear, heat, cavitation, oxidation and varnish. *32oz bottle*

Overall Benefits:

Improves overall performance

Alleviates hesitation

Reduces heat, wear, slippage, hard shifting

FOLLOW THESE DIRECTIONS EXACTLY TO ENSURE THE BEST PERFORMANCE IMPROVEMENT

A few things to know before you get started:

This is not a permanent treatment and must be reapplied at each fluid change. We cannot coat these parts because of the need for friction in order for an automatic transmission to work.

Additive package in this formula is compatible with transmission oils meeting or exceeding warranty requirements.

Do not mix our product with another. If your transmission has some other kind of treatment in it we recommend that you first change the fluids and then add our products.

We strongly recommend that you keep up your manufacturers' maintenance program. Changing fluids regularly is the key to successful vehicle maintenance.

Directions for Automatic Transmission Treatment:

Add 32 fl oz of Automatic Transmission Treatment to your transmission fluid.

Always change transmission fluid according to manufacturer's recommendations. Do Not Overfill.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Do not induce vomiting. Seek medical attention. Wash hands thoroughly with soap and water after use.
